

Talk To Me

Keep it tight, then let it blow away
Reap it. Everything will come your way
Mysteries no one's able to create
Feel it in every move that you make

Refr: Talk to me, talk to me, talk to me....

Dancer, lend me your transforming view
Watch me when you do your sweetest moves
Thrill me with your sensitivity
Take a leap. Do it for my destiny

Refr: Talk to me...

Move me when I step into your worlds
Hide me. Let me rest inside your twirls
Fill me when I'm in my deepest grief
Lift me when your dance in front of me

Refr: Talk to me...

Your motions almost tearing me apart
Dancer, when you dance inside my heart

Refr: Talk to me...
