

Wild Child

It's all right, it's all over
You are safe, it's all gone now
I am here and I'm not leaving
Forest child, find your peace

Even though the day is fading
And the dark is moving closer
You are safe for I am with you
Forest child, go to sleep

Refr: Green leaves, green eyes
The moss where you lie
Let fairies tell you tales
Wild soul, wild child

Don't look back over my shoulder
Leave it be and let it wither
Climb your heart and sink into it
Forest child, sink in deep

Time has left and all is quiet
Moonlight resting in your hair
What went wrong no longer matters
Shine out far, forest star

Refr: Green leaves, green eyes
The moss where you lie
Let fairies tell you tales
Wild soul, wild child

BK Lyrics
